

Here to bring certainty to schools and MATs, during uncertain times

How do you keep your school running smoothly?

iPay impact gives parents and guardians a transparent view over all school payments. Email alerts and notifications inform parents that their balance is low and make them aware of any recurring payments that are due, ultimately reducing time-consuming admin for busy teams.

ONLINE PAYMENTS are a wise choice in the current climate to reduce cash circulation on school grounds. iPay is a reliable online payment process for parents and integrates seamlessly with our cashless catering system Fusion, providing a truly integrated solution for your school.

WORK ANYWHERE, remote access facilitates flexible working for staff across MATs, councils and Local Authorities. All CRB Cunningham solutions ensure the highest level of compliance and student data security.
